Tidal Corrections for Other Ports.

The time of high-water is given for the tide which follows the moon's southing; the time of the next tide may be found by adding 12h. 24m. To find the time of high-water at any of the ports named below, find the time of high-water at Portland, on the given day, and then add or subtract the figures opposite the name of the port as marked *plus* or *minus*:

Weather Record. The Weather Record in the following Calendar pages was compiled from observations made by the "United States Signal Service Department," at Portland, Me., WM. T. BOYD, Observer.

Explanations. In classifying the winds, the Beaufort scale is used, in which the velocities per hour are indicated as follows, viz.:—1 to 3, light; 3 to 5, gentle; 5 to 14, fresh; 14 to 29, brisk; 29 to 40, high; 40 to 59, gale; 59 to 79, storm; 79 upwards, hurricane. The observation day for the force of the winds extends from 12 M. of the previous day to 12 M. of the day on which the observation is noted. In measuring the snow fall the equivalent rain fall is given.

UNITED STATES.

CONSTITUTION.

Compiled and Amendments incorporated by J. H. Drummond, Esq.

We, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America.

ARTICLE I.

Section 1. All legislative powers herein granted shall be vested in a congress of the United States, which shall consist of a senate and house of representatives.

Sect. 2. The house of representatives shall be composed of members chosen every second year by the people of the several States, and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the state legislature.

No person shall be a representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen. *See also Art. XIV, Sec. 3d, of Amendments, as to Qualification of Representatives.*

Representatives and direct taxes shall be apportioned among the several States which may be included within this Union, according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, *three-fifths of all other persons.* The actual enumeration shall be made within three years after the first meeting of the congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of representatives shall not exceed one for every thirty thousand, but each State shall have at least one representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose three, Massachusetts eight, Rhode Island and Providence Plantations one, Connecticut five, New York six, New Jersey four, Pennsylvania eight, Delaware one, Maryland six, Virginia ten, North Carolina five, South Carolina five, and Georgia three. *See Art. XIV, Sec. 2d, of Amendments, in amendment of Apportionment.*

When vacancies happen in the representation from any State, the executive authority thereof shall issue writs of election to fill such vacancies.

The house of representatives shall choose their speaker and other officers; and shall have the sole power of impeachment.

Sect. 3. The senate of the United States shall be composed of two senators from each State, chosen by the legislature thereof, for six years; and each senator shall have one vote.

Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the senators of the first class shall be vacated at the expiration of the second year; of the second class, at the expiration of the fourth year; and of the third class, at the expiration of the sixth year; so that one-third may be chosen every second year; and if vacancies happen, by resignation or otherwise, during the recess of the legislature of any State, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies.

No person shall be a senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen. *See also Art. XIV, Sec. 3d of Amendments, as to Qualification of Senators.*

The vice-president of the United States shall be president of the senate, but shall have no vote, unless they be equally divided.

The senate shall choose their other officers, and also a president pro tempore in the absence of the vice-president, or when he shall exercise the office of president of the United States.

The senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the president of the United States is tried, the chief justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust, or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment, and punishment, according to law.

SECT. 4. The times, places, and manner of holding elections for senators and representatives, shall be prescribed in each State by the legislature thereof; but the congress may at any time by law make or alter such regulations, except as to the places of choosing senators.

The congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

SECT. 5. Each house shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business, but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner, and under such penalties as each house may provide.

Each house may determine the rules of its proceeding, punish its members for disorderly behavior, and, with the concurrence of two-thirds, expel a member.

Each house shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may, in their judgment, require secrecy; and the yeas and nays of the members of either house on any question shall, at the desire of one-fifth of those present, be entered on the journal.

Neither house, during the session of congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.

SECT. 6. The senators and representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the treasury of the United States. They shall, in all cases, except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective houses, and in going to and returning from the same; and for any speech or debate in either house, they shall not be questioned in any other place.

No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either house during his continuance in office.

SECT. 7. All bills for raising revenue shall originate in the house of representatives; but the senate may propose or concur with amendments as on other bills.

Every bill which shall have passed the house of representatives and the senate, shall, before it become a law, be presented to the president of the United States; if he approve he shall sign it, but if not he shall return it with his objections to that house in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered; and if approved by two-thirds of that house, it shall become a law. But, in all such cases, the votes of both houses shall be determined by yeas and nays; and the names of the persons voting for and against the bill shall be entered on the journal of each house respectively. If any bill shall not be returned by the president within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law, in like manner as if he had signed it, unless the congress, by their adjournment, prevent its return, in which case it shall not be a law.

Every order, resolution, or vote to which the concurrence of the senate and house of representatives may be necessary (except on a question of adjournment), shall be presented to the president of the United States, and, before the same shall take effect, shall be approved by him, or, being disapproved by him, shall be re-passed by two-thirds of the senate and house of representatives, according to the rules and limitations prescribed in the case of a bill.

SECT. 8. SECTION 1. The executive power should be vested in a president of the United States of America. He shall hold his office during the term of four years, and, together with the vice-president, chosen for the same term, be elected as follows:

Each State shall appoint, in such manner as the legislature thereof may direct, a number of electors, equal to the whole number of senators and representatives to which the State may be entitled in the congress; but no senator or representative, or person holding an office of trust or profit under the United States, shall be appointed an elector. *See also Art. XIV, Sec. 3d, of Amendments, as to qualification of Electors.*

[The next paragraph in the original Const. has been repealed, and the following (Art. XII, of Amend's), substituted: The electors shall meet in their respective States, and vote by ballot for president and vice-president, one of whom, at least, shall not be an inhabitant of the same State with themselves: they shall name in their ballots the person voted for as president, and in distinct ballots the person voted for as vice-president; and they shall make distinct lists of all persons voted for as president, and of all persons voted for as vice-president, and of the number of votes for each; which list they shall sign and certify and transmit sealed to the seat of the govern-

ment of the United States, directed to the president of the senate. The president of the senate shall, in the presence of the senate and house of representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for president shall be the president, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as president, the house of representatives shall choose immediately, by ballot, the president. But, in choosing the president, the vote shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the house of representatives shall not choose a president, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the vice-president shall act as president, as in the case of the death, or other constitutional disability of the president. The person having the greatest number of votes as vice-president shall be the vice-president, if such number be a majority of the whole number of electors appointed; and if no person have a majority, then, from the two highest numbers on the list, the senate shall choose the vice-president; a quorum for the purpose shall consist of two-thirds of the whole number of senators; and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of president shall be eligible to that of vice-president of the United States.

The congress may determine the time of choosing the electors, and the day on which they shall give their votes; which day shall be the same throughout the United States.

No person, except a natural-born citizen, or a citizen of the United States at the time of the adoption of this constitution, shall be eligible to the office of president; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years, and been fourteen years a resident within the United States.

In case of the removal of the president from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the vice-president; and the congress may by law provide for the case of removal, death, resignation, or inability, both of the president and vice-president, declaring what officer shall then act as president, and such officer shall act accordingly until the disability be removed, or a president be elected.

The president shall, at stated times, receive for his services a compensation, which shall neither be increased nor diminished during the period for which he shall have been elected; and he shall not receive within that period any other emolument from the United States, or any of them.

SECT. 2. The president shall be commander-in-chief of the army and navy of the United States, and of the militia of the several States, when called into the actual service of the United States; he may require the opinion in writing, of the principal officer in each of the executive departments, upon any subject relating to the duties of their respective offices; and he shall have power to grant reprieves and pardons for offenses against the United States, except in cases of impeachment.

He shall have power, by and with the consent and advice of the senate, to make treaties, provided two-thirds of the senators present concur; and he shall nominate, and by and with the advice and consent of the senate shall appoint, ambassadors, other public ministers and consuls, judges of the su-

preme court, and all other officers of the United States whose appointments are not herein otherwise provided for, and which shall be established by law; but the congress may by law vest the appointment of such inferior officers as they think proper in the president alone, in the courts of law, or in the heads of departments.

The president shall have power to fill up all vacancies that may happen during the recess of the senate by granting commissions, which shall expire at the end of their next session.

SECT. 3. He shall, from to time, give to the congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient; he may, on extraordinary occasions, convene both houses, or either of them, and, in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.

SECT. 4. The president, vice-president, and all civil officers of the United States, shall be removed from office on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors.

ARTICLE III.

SECTION 1. The judicial power of the United States shall be vested in one supreme court, and such inferior courts as the congress may, from time to time, ordain and establish. The judges, both of the supreme and inferior courts, shall hold their offices during good behavior; and shall, at stated times, receive for their services a compensation, which shall not be diminished during their continuance in office.

SECT. 2. The judicial power shall extend to all cases in law and equity arising under this Constitution, the laws of the United States, and treaties made or which shall be made under their authority; to all cases affecting ambassadors, other public ministers, and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more States, *between a State and citizens of another State*, between citizens of different states, between citizens of the same State claiming lands under grants of different States, and between a State, or the citizens thereof, and foreign states, citizens, or subjects. (*See Art. XI, of Amendments.*)

In all cases affecting ambassadors, other public ministers, and consuls, and those in which a State shall be a party, the supreme court shall have original jurisdiction. In all the other cases before mentioned, the supreme court shall have appellate jurisdiction, both as to law and fact, with such exceptions and under such regulations as the congress shall make.

The trial of all crimes, except in cases of impeachment, shall be by jury; and such trials shall be held in the State where the said crimes shall have been committed; but, when not committed within any State, the trial shall be at such place or places as the congress may by law have directed.

SECT. 3. Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason, unless on the testimony of two witnesses to the same overt act, or on confession in open court.

The congress shall have power to declare the punishment of treason; but no attainder of treason shall work corruption of blood, or forfeiture, except during the life of the person attainted.

ARTICLE IV.

A person charged in any State with treason, felony, or other crime, who shall flee from justice and be found in another State, shall, on demand of the executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime.

No person held to service or labor in one State under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

SECT. 3. New States may be admitted by the congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States, or parts of States, without the consent of the legislatures of the States concerned, as well as of the congress.

The congress shall have power to dispose of and make all needful rules and regulations respecting the territory, or other property, belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States or of any particular State.

SECT. 4. The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion, and, on application of the legislature or of the executive (when the legislature cannot be convened), against domestic violence.

ARTICLE V.

The congress, whenever two-thirds of both houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the legislatures of two-thirds of the several States, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes as part of this constitution, when ratified by the legislatures of three-fourths of the several States, or by convention in three-fourths thereof, as the one or the other mode of ratification may be proposed by the congress: provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the ninth section of the first article; and that no State, without its consent, shall be deprived of its equal suffrage in the senate.

ARTICLE VI.

All debts contracted, and engagements entered into, before the adoption of this Constitution, shall be as valid against the United States, under this Constitution, as under the Confederation.

This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every State shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

The senators and representatives before mentioned, and the members of the several State legislatures, and all executive and judicial officers both of the United States and of the several States, shall be bound by oath or affirmation to support this Constitution; but no religious test shall ever be required as a qualification to any office of public trust under the United States.

ARTICLE VII.

Historical Facts connected with the formation of the original Union, and the admission of new States.

On Monday, September 5, 1774, a number of men were assembled at Carpenter's Hall, Philadelphia, who had been chosen by the several Colonies, in what now constitutes the United States, to hold a Congress for the purpose of discussing certain grievances imputed to the mother country. This Congress resolved that each colony should have one vote only. On Tuesday, July 2, 1776, the Congress resolved, "That these United Colonies are, and of right ought to be, Free and Independent States," etc.; and on Thursday, July 4, the whole Declaration of Independence having been agreed upon, was publicly read to the people. On September 9 it was resolved that the words "United Colonies" should no longer be used, and that "United States" should thenceforward be the style and title of the Union. On Saturday, November 15, 1777, "Articles of Confederation and Perpetual Union of the United States of America" were agreed to by the State Delegates, subject to the ratification of the several State Legislatures. Eight of the States ratified these articles July 9, 1778; one July 21; one July 24; one November 26; one February 22, 1779; and the last one March 1, 1781.

The seat of government was established, first at Philadelphia, Penn., commencing September 5, 1774; and May 10, 1775; at Baltimore, Md., Dec. 20, 1776; at Philadelphia, Penn., March 4, 1777; at Lancaster, Penn., September 27, 1777; at York, Penn., September 30, 1777; at Philadelphia, Penn., July 2, 1778; at Princeton, N. J., June 30, 1783; at Annapolis, Md., November 26, 1783; at Trenton, N. J., November 1, 1784; and at New-York City, January 11, 1785.

On the 4th of March, 1789, the present Constitution, which had been adopted by a convention and ratified by the requisite number of States, went into operation. The several State Legislatures ratified this instrument at the following dates:

Delaware, December 7, 1787; Pennsylvania, December 12, 1787; New-Jersey, December 13, 1787; Georgia, January 2, 1788; Connecticut, January 9, 1788; Massachusetts, February 6, 1788; Maryland, April 28, 1788; South Carolina, May 23, 1788; New Hampshire, June 21, 1788; Virginia, June 26, 1788; New-York, July 26, 1788; North Carolina, November 21, 1789; Rhode Island, May 29, 1790.

The privilege of becoming members of the Union by ratifying the Constitution was confined to those States that were parties to the confederation by which the Constitution had been framed. The Constitution was adopted by the Convention, September 17, 1787. It required that nine States should ratify it before its provisions could go into effect. Congress, on the 13th of September, 1788, determined that as a sufficient number of States had ratified it—eleven having done so—it should become operative on the first Wednesday (the 4th) of March, 1789. North-Carolina and Rhode-Island had not yet sanctioned it; but as soon as they acceded to its provisions, they were admitted to its privileges.

Twenty-five States have been admitted into the Union since the confederation of the original thirteen colonies:

1. Vermont, March 4, 1791.
2. Kentucky, June 1, 1792.
3. Tennessee, June 1, 1796.

CENSUSES OF THE UNITED STATES.

The census is taken in the United States in obedience to the Constitution, which commands that an actual enumeration or census shall be made within three years after the first meeting of the Congress, and within every subsequent term of ten years, in such manner as Congress shall by law direct. Under our system of government, the census is of more importance in the United States than in most other countries, because representation in Congress and direct taxes are apportioned according to *numbers* in the States.

POSTAGE RATES.

All mailable matter shall be divided into four classes: First, written matter; Second, periodical publications; Third, miscellaneous printed matter; Fourth, merchandise.

FIRST-CLASS MATTER.

Mailable matter of the first class shall embrace letters, postal cards, and all matters wholly or partly in writing, except as hereinafter provided.

Every Letter, or written communication, weight not over half an ounce, any distance within the United States, 3 cents; for *each* additional half ounce, or fraction, 3 cents in addition.

Drop Letters, 1 cent for every half ounce or less. At offices where free delivery by carrier is established, 2 cents for each half ounce.

Book Manuscript, manuscript for magazines, periodicals, newspapers, and music manuscript are now subject to full letter rates of postage, except they be accompanied by proof-sheets, or corrected proof-sheets, when the rate will be one cent for each two ounces or fractional part thereof.

Matter produced by the type-writer; crayon drawings; and matter prepared by the manifold process, are subject to postage at letter rates.

Letters deposited at a post office for mailing with less than one full letter rate of postage — 3 cents, prepaid — should not be forwarded in the mails, but must be held for postage.

Matter produced by the electric pen and papyrograph processes, which is not in the nature of correspondence, may be received and transmitted in the mails at third-class rates, when properly presented for mailing.

SECOND-CLASS MATTER.

Mailable matter of the second class shall embrace all newspapers and other periodical publications which are issued at stated intervals, and as frequently as four times a year.

The rate of postage on all description of publications of the second class will be two cents a pound or fraction thereof, after May 1st, 1879, from well-known publishers, to regular subscribers.

Publications of the second class, one copy to each actual subscriber residing in the county where the same are printed, in whole or in part, and published, shall go free through the mails; but the same shall not be delivered at letter-carrier offices, or distributed by carriers, unless postage is paid thereon at the rate prescribed.

Second and third-class matter must be fully prepaid or held for postage.

An "extra" issue of any publication can only be sent in the mails at the rates for printed matter of the third class.

An advertising sheet with the word "Supplement" printed at the head does not come within the department's definition of a genuine supplement.

Back numbers of a previous volume of a periodical or other publication cannot be mailed either by news-agents or publishers at pound rates of postage.

News Dealers may receive and send periodicals to regular subscribers, as publishers, but packages so sent cannot be returned except by pre-payment of transient rates. They may also return surplus publications of the second class at rates for second class matter.

Second class matter, published in the same city where it is to be delivered, may, when delivered from the office—either from the general delivery or the boxes—be mailed at the rate of two cents per pound or fraction thereof. When it is to be delivered by carriers it can only be mailed, as under the present law, at a uniform rate of one cent each for newspapers (excepting weeklies) and periodicals not exceeding two ounces, and at two cents each for periodicals weighing more than two ounces.

Sample copies of second class publications may, when sent from an office of publication, be forwarded in the mails to parties who are not subscribers, at second class rates. Any number of copies of any number of different editions of a second class publication may be sent at any one time as sample copies.

THIRD CLASS MATTER.

Mail matter of the third class shall embrace books, transient newspapers and periodicals, circulars, and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same, and postage shall be paid at the rate of one cent for each two ounces or fractional part thereof.

The term circular is defined to be a printed letter, which, according to internal evidence, is being sent in identical terms to several persons. A circular shall not lose its character as such, when the date and the name of the addressed and of the sender shall be therein written, nor by the correction of mere typographical errors in writing.

Printed matter is defined to be the reproduction upon paper, by any process except that of handwriting, of any words, letters, characters, figures, or images, or of any combination thereof, not having the character of an actual and personal correspondence.

The sender of any article as above may write his or her name or address therein, or on the outside thereof, with the word "from" above or preceding the same, or may write briefly or print on any package the number and names of the articles inclosed.

FOURTH CLASS MATTER.

Mailable matter of the fourth class shall embrace all matter not embraced in the first, second, or third class, which is not in its form or nature liable to destroy, deface, or otherwise damage the contents of the mail-bag, or harm the person of any one engaged in the postal service, and is not above the weight provided by law, which is hereby declared to be not exceeding four pounds for each package thereof, except in case of single books weighing in excess of that amount, and except for books and documents published or circulated by order of Congress, or official matter emanating from any of the departments of the government or from the Smithsonian Institution, or which is not declared non-mailable.

All matter of the fourth class shall be subject to examination, and to a postage charge at the rate of one cent an ounce or fraction thereof, to be prepaid by stamps affixed.

WE, the people of Maine, in order to establish justice, insure tranquility, provide for our mutual defence, promote our common welfare, and secure to ourselves and our posterity the blessings of liberty, acknowledging with grateful hearts the goodness of the Sovereign Ruler of the Universe in affording us an opportunity, so favorable to the design; and, imploring his aid and direction in its accomplishment, do agree to form ourselves into a free and independent State, by the style and title of the STATE OF MAINE, and do ordain and establish the following Constitution for the government of the same.

ARTICLE I.

DECLARATION OF RIGHTS.

Natural rights.

SECTION 1. All men are born equally free and independent, and have certain natural, inherent, and unalienable rights, among which are those of enjoying and defending life and liberty, acquiring, possessing, and protecting property, and of pursuing and obtaining safety and happiness.

All power inherent in the people.

SEC. 2. All power is inherent in the people; all free governments are founded in their authority and instituted for their benefit; they have therefore an unalienable and indefeasible right to institute government, and to alter, reform, or totally change the same, when their safety and happiness require it.

Religious freedom.

SEC. 3. All men have a natural and unalienable right to worship Almighty God according to the dictates of their own consciences, and no one shall be hurt, molested, or restrained in his person, liberty, or estate, for worshipping God in the manner and season most agreeable to the dictates of his own conscience, nor for his religious professions or sentiments, provided he does not disturb the public peace, nor obstruct others in their religious worship;—and all persons demeaning themselves peaceably as good members of the State, shall be equally under the protection of the laws, and no subordination nor preference of any one sect or denomination to another shall ever be established by law, nor shall any religious test be required as a qualification for any office or trust, under this State; and all religious societies in this State, whether incorporate or unincorporate, shall at all times have the exclusive right of electing their public teachers, and contracting with them for their support and maintenance.

Proviso.

BY HON. WILLIAM WILLIS.

The first discovery of the coast of Maine was made by the Northmen, as early as the year 990. They made occasional visits to it until the middle of the fourteenth century, but made no attempt to settle upon it. From that time to the second voyage of Cabot, in 1498, we have no evidence that the coast was seen by any European until the French expedition under Verrazano, in 1524, of Gomez, the Spaniard, in 1525, and of Rut, under the English, in 1527, which were mere cursory visits without any results. In 1556, André Thevet, a Catholic priest, sailed in a French ship along the entire coast, entered Penobscot Bay, where he spent five days, and had numerous conferences with the natives. This is the last notice we have of Maine to the close of the sixteenth century.

The first attempt to settle upon the territory was made by the French, under ou Mont, who, having received a grant from the king of France, planted a large colony on Neutral Island, in the River St. Croix, to which he gave that name in 1604; but the location being unfavorable, it was abandoned the next year. In 1605, the coast in the neighborhood of the River St. George was visited by Capt. Weymouth, and explored to a small extent, which led to the well-appointed expedition to the mouth of the Kennebec River, in 1607, under command of Captain George Popham as president, and Captain Raleigh Gilbert as admiral, set forth by the noble gentlemen, Sir John Popham and Sir Ferdinando Gorges, with a view to colonize this portion of the coast, for which, and the whole country from north latitude 34 to 44, a charter had been obtained from King James, in 1606. But from various unfortunate circumstances the colony became discouraged and returned to England the next year.

In 1613, French Jesuits established a mission on Mount Desert Island, which was driven off by the English the next year. In 1616, Sir F. Gorges, a leading adventurer and promoter of colonization in Maine, sent his agent, Richard Vines, with a small company to Saco, to remain through the winter, explore the country, and test the climate. A company of fishermen was also established at Monhegan Island at this time, under Captain John Smith, who took possession of it in 1614, and thence ranged the whole coast to Cape Cod, and prepared a map upon which he affixed the name of New England.

In 1620, James I. made a division of the grand charter of 1606, and granted to the Plymouth Company, in England, the whole country lying between the 40th and 48th degrees of north latitude, and to the Virginia Company the southern portion of the original patent. This gave a new impulse to commercial operations in America, and numerous vessels were fitted out for the fish and fur trade. In 1622, Gorges and Captain John Mason obtained of the Plymouth Company, a grant of the territory lying between the Merrimac and Kennebec Rivers, and the next year planted a colony at the mouth of the Piscataqua, which was the first permanent occupation of the main-land in Maine. Gorges and Mason divided their possessions, Gorges taking all east of the Piscataqua, Mason all west. In 1624, Gorges established a colony at York. In 1625, Pemaquid was occupied under grants from the Plymouth Company. From 1630 to 1632 settlements were commenced in Saco, Biddeford, Scarborough, Cape Elizabeth, and Portland, all which continued to grow prosperously until the Indian war of 1675, when they were all overthrown, as well as those between the Kennebec and Penobscot Rivers. East of Penobscot River the French had possession, and very little improvement was made there until after the Revolution of 1775, although Sir William Alexander, Earl of Sterling, had a grant of the whole country to Pemaquid, including Nova Scotia. On the division by the Plymouth Company of their patent among the proprietors, the portion lying between Piscataqua and Kennebec Rivers, was awarded to Gorges, in 1635, confirmed by the king in 1639, and he forthwith established a regular government over it, under his deputy, assisted by an assembly of delegates chosen by the people; and by the king's patent of confirmation it received the name which is now extended over the whole territory. His government continued under himself and heirs, with occasional interruption, during the period of the commonwealth in England, and the usurpation of Massachusetts, until 1677, when the heirs, wearied by the conflicts with Massachusetts for jurisdiction, sold their interest to that persistent colony for £1250. Gorges died in 1647.

The Province between the Kennebec and Penobscot Rivers was granted by Charles II. in 1664, to his brother, the Duke of York, who had the year before purchased the territory awarded to the Earl of Sterling in the division of the country, of his heirs, and immediately established a government there whose seat was at the city of Pemaquid, where an expensive and strong fort was built. This country was surrendered to Massachusetts in 1686, who took possession, exercised government over it as far east as Penobscot, which, with all the territory east to the St. Croix and Nova Scotia was confirmed to her by the Provincial charter of 1691. She afterwards relinquished Nova Scotia, but all the remainder was secured to her by the treaty of 1783, which established the independence of the United States, and she retained possession and jurisdiction until the separation of 1820 took place, which constituted Maine a separate and independent member of the confederacy.

Situation and Area.—The State lies between 42° 57′ and 47° 30′ of north latitude, and 5° 45′ and 10° 10′ east longitude from Washington. It is the most eastern State of the Union, embraces an area of 32,000 square miles, or 20,000,000 acres, and is larger than all the other New England States. Its greatest length on a diagonal line from the mouth of Piscataqua River to the northern angle is 320 miles; its greatest width from the sea to the Canada line is 160 miles; on a straight line from the mouth of Piscataqua River to Quoddy Head is 250 miles.

The surface of the State is diversified; the central and north-western portions rising in lofty summits; the highest of which is Katahdin, 5300 feet above the level of the sea; Mt. Abraham, in Franklin County, is 3400 feet; Mt. Blue, in the same county, 2800 feet. Mar's Hill, in Washington county, 2000 feet. The Highlands, at the Monument on the Canada line, is 2000 feet above the sea level. On the coast are some prominent eminences

which attract the mariner as he approaches the coast, as Mt. Desert, the Camden Hills, on the Penobscot, 1500 feet in height, and Agamenticus, in York, 670 feet. Among these mountains and hills are rich and wide-spread valleys watered by large and never-failing rivers, furnished with numerous and valuable falls, and water-power capable of moving an indefinite amount of machinery, and already largely employed.

CLIMATIC STATISTICS OF MAINE.

By tables kept at the Observatory on Munjoy's Hill, Portland, 160 feet above the level of high-water, for 32 years, 1825 to 1857, the *annual average* temperature was 43° 23′ Far. The highest point attained was 100° 5′, the lowest Jan. 24, 1857, 25° below zero. The highest *mean* temperature in any month was 71°, July, 1825; the lowest, 13° above zero, January, 1844.

The following deductions are made from the Meteorological record kept by Prof. Cleaveland, of Bowdoin College, at Brunswick, from 1807 to 1859. Average annual temperature, April 20°, October 24°. Mean temperature, 44° 40′ Far. The hottest day falls on July 22, 31 days after summer solstice; the coldest day, Jan. 18, 28 days after winter solstice. Lowest temperature for the 52 years was 30° below zero at Brunswick; the highest 102°.

Average number of rainy days in the year is 64, varying between 39 and 95; average number of snowy days 30, varying between 19 and 50. The greatest number of rainy or snowy days occur with north-east wind, the least with west wind. July is the only month in which no frost occurred.

In Portland, the amount of rain and snow reduced to water, which fell in 1857, was 47.66 inches; 1858, 43.42 inches; 1859, 48.55 inches. Mean barometric pressure at a station 85½ feet above the sea, 29.9 inches.

By tables kept in Salem, Mass., for 43 years, by Dr. Holyoke, the mean annual temperature there was found to be 47° 9′.

History of Parties.

The two great political parties in the United States grew out of the different views entertained by the leading men in regard to the Constitution which was proposed for adoption. The conflict of opinion on that subject was very severe, and a distressing doubt existed as to the adoption of the Constitution, which was submitted to the people by the convention. These parties took the names of Federalists and Anti-federalists. The latter were afterwards known by the names, Republican and Democrat. These two grand divisions maintained their distinct organizations until the close of the war of 1812, dividing upon many questions of internal administration and foreign policy; as well as on men to represent them in the government; as, after Washington, between Adams and Jefferson, Madison, Clinton, etc. But the war of 1812 absorbed the old political issues, many of the leading politicians deeming it of paramount importance to sustain the government in that crisis. Mr. Monroe, a former Republican, was consequently elected with great unanimity in 1816. On his second election in 1820, he received every electoral vote but Gov. Plummer's, in New Hampshire. Thus it will be seen that the old political parties ceased to exist as separate organizations under Mr. Monroe's administration. Timothy Pickering, a member of Congress, and an ultra of the Republican school, declared on the floor of the House, that the government having pursued a policy mainly conforming to the doctrines of his party, he had no desire to oppose the administration of Mr. Monroe. New questions arose as to the tariff, internal improvements, slavery, etc., so entirely different from the old issues, that new combinations were formed, and old thorough-bred Federalists were found associating in close alliance with their former radical opponents over the Democratic side. And Henry Clay, John Holmes, Peleg Sprague, Levi Lincoln, John Q. Adams, now united with Gore and King, and Otis and Pickering, old federal leaders, and formed the great *National Republican* party in opposition to the election of General Jackson in 1820. This name in turn gave place in the exciting presidential campaign of 1832, to the more popular term of Whig, under whose banner the opponents of Gen. Jackson for his second term rallied in support of Henry Clay; but all in vain, even though they had the aid of Maryland, and the sympathy of Calhoun. But this great party became hopelessly divided on the slavery question in 1843 and subsequent years, and ceased to exist in 1854; a portion joining the American party, or "Know Nothings." Some of the Democrats and others united with refugees from all other national organizations to constitute the great Republican party of the present day.

In Maine, the question of separation from Massachusetts absorbed the former party issues, many of the old Federalists having joined the Republican party in support of a separate government. And it being understood, if not actually pledged, that the offices of the new State should be filled by the best men without regard to their former political opinions, General

King, who had been a leading and most active agent in the cause of separation, and a prominent Democrat, was designated by general consent as chief magistrate, and elected without opposition. But before his term of office expired he was appointed a Commissioner under the Spanish treaty, and his unexpired term was filled by William D. Williamson, President of the Senate.

But at the second election a very exciting controversy arose between two prominent men of the same Democratic party, Mr. Parris and General Wingate, for this chief prize, and their personal friends pursued the game with exceeding bitterness. Mr. Parris won by superior tactics, and having the chief party leaders. The Federalists made no nomination, but continued for several years to throw their votes for their favorite candidate, Judge Whitman.

Gov. Parris's administration was successful and popular; there were no exciting political topics to agitate the public mind, and all opposition to his reëlection ceased. He was continued in office until 1826, when he peremptorily declined a further nomination. The following year he was chosen a Senator in Congress.

In the Presidential election of 1856, the Whig, Free Soil, and American parties were largely abandoned, and a new party was formed of those abandoning their old party organizations, together with many from the Democratic party, called the Republican party, in opposition to the Democratic party. This party commenced somewhat earlier in this State.

Hannibal Hamlin resigned Feb. 25, '57, to accept Senatorship to which he had been elected, and Jos. H. Williams, President of Senate, acted for remainder of year.

The Greenback party made its first appearance in American politics, with the nomination of Wm. Allen for governor of Ohio, by the Democratic State Convention of 1874, in opposition to Rutherford B. Hayes, upon a platform containing a soft money clause. This party made its first appearance in Maine, with the introduction into the Democratic State Convention of 1875, by Solon Chase of Turner, of a resolution containing this Ohio clause. This resolution was refused a passage. Before the next campaign, Solon Chase established a Greenback newspaper, and a party was formed, which nominated Almon Gage, of Lewiston, as Governor, who received 520 votes.

CITY OF PORTLAND.

Originally a part of ancient Falmouth. First settled by George Cleaves and Richard Tucker in 1632. Ancient Indian name, Machigonne. Settlement entirely destroyed in 1676, during the first Indian war, and resettled 1680, under Pres. Danforth. The town was again destroyed by the French and Indians in 1690. After the conclusion of peace, some of the inhabitants began to return, and, about 1713, the settlement had regained something of its early prosperity, and a gradual and steady progress was made from this time. In 1727, March 7, a church was organized, the first on the east of Saco river, over which Rev. Thomas Smith was then ordained the pastor.

In 1733, Robert Bayley was employed as schoolmaster. In 1735, it was made half shire town with York. Early in the war of the Revolution, the town suffered a third time from the ravages of war, being bombarded by the British fleet under Capt. Mowatt, Oct. 18, 1775, and almost completely destroyed. Portland was incorporated as a town July 4, 1786, and adopted a city charter March 26, 1832. Suffered from a terrible fire July 4th and 5th, 1866, in which nearly one third of the city was destroyed. Population—1790, 2246; 1850, 12,815; 1860, 26,341; 1870. 31,413. Valuation, 1860—Polls, 4244; Estates, $17,866,000; 1870—Polls, 7814; Estates, $29,439,257.

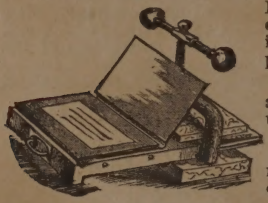
ZUCCATO'S PAPYROGRAPH



Is a new invention for the rapid production of fac-simile copies of any Writing, Drawing, or other work which can be done with pen and ink.

Autograph Letters, Circulars, Music, etc., are first written upon a sheet of paper, in the usual way, and from this written sheet

500 COPIES PER HOUR

may be printed upon any kind of dry paper or other material in a common copying press.

This is the Most Simple, Rapid, and Economical process yet discovered.

Thousands are already in successful use in Government Offices, Colleges, Academies, Public and Private Schools, Railway and Insurance Offices. Also, by business men, lawyers, clergymen, Sunday-school superintendents, missionaries, and others.

The Simmons Hardware Co., of St. Louis, says of it: "Our Papyrograph purchased some time since, gives entire satisfaction. Would not be without it for $1,000 a year."

O. K. Gerrish, esq., of Portland, says:—"The Zuccato's Papyrograph purchased of you about a year and a half since has not only proved **entirely satisfactory,** in warranting all that was claimed for it, but has become, as it were, a **necessity** in my office, the remark of clerks having often been, 'Don't know how we could get along without that Papyrograph.' I take pleasure in recommending it."

"BIDDEFORD, ME., March 11, 1879.

GENTS:—The Papyrograph purchased of you more than a year ago has been quite constantly in use. I have found it very easy to work, and **exceedingly helpful** in a great variety of ways. Convention programmes, church notices, praise services, pastoral letters, etc., etc., have been produced by it most readily and satisfactorily.

Very truly yours, Rev. GEO. R. MERRILL."

CONANT'S PHOTOGRAPHS.—As a photographic artist, Conant has few if any superiors. His fame is not confined to this City, or even State, and wherever his work has gone it has received the most unqualified recommendation. His pictures all have a truly artistic finish, and are their own best witnesses of his skill and care. Conant received a silver medal at the recent New England Fair, and at several previous exhibitions has received similar pledges of the good judgment of committees.
